HISTORY

I started Judo at the age of 7 with the Hamrun boy's scouts under where Godfry and Alex Bezzina used to Coached. At the age of 9 I had to stop due to the fact that my family moved to Misida. When I was 15 I Started Judo at the Kamikwai under sensei Mario Juliano and had to stop at 17. I met Mario Juliano when I was 26 when he asked me if I could help him run the Scorpion Judo Club,

Being closer to were I lived, so I agreed time passed and In 1989 I started to attend twice a week to help Coach Judo.

In 1990 Mario told me that he no longer could run the club and if I would like to take over, I was uncertain at first but then I agreed and started to run the club. In 1993 I had to move the club to new premises in Fgura but this was not satisfactory so I made arrangements and we were given permission to use the Fgura primary school, but when Mr. Envic Galea offered larger premises with the AS Hibernians I accepted and made the move once more at that time I was being assisted by Mr. Mario Cardona. We decided to Split the seniors', juniors and Cadets from the Espuars the latter where taken care by me as Mario Coached the others, now we had a fairly well organized dojo.

But it wasn't meant to be because the premises of the Hibernins sport Complex were taken to be restored to there original looks, where Mario and I took different directions and It was decided that the name and administration of Hibernians Budokwai is to be kept by Mario, and I was going to start a New club at Mriherl The name of which KIN-SU DOJO which means "A NEW WIND"
